Hand motions:

The grasshoppers three

Hold up 3 fingers

a-fidding went

Hold your left arm out as if holding a fiddle and

move your right hand left and right as if playing with the bow

Heigh-ho never be still

Cup your hands around your mouth as if shouting and

bending from waist move left-right-left-right

They paid no money for their rent

Hold one hand out palm up and make a fist with the other

bang fist into palm as if demanding money

But all day long with their elbows bent

Put the back of your hands on your hips so your elbows stick way out

twist left-right-left-right

They fiddled a tune called "Rillaby Rillaby"

Hold your left arm out as if holding a fiddle and

move your right hand left and right as if playing with the bow

Fiddled a tune called "Rillaby Rill"

Hold your left arm out as if holding a fiddle and

move your right hand left and right as if playing with the bow
